Howdy Fred: congrats on that "long" memory of urs and also for where u r now, time sure flies, imagine u were only 14 yrs old on our last qso!! Gld ur taking subjects tt u r.. Vy interesting experiment with the 50 ft high dipole and the g.p. with base at 50 feet also ur comments on both antennae. I now have enough galvanized pipe to telescope my masts to 40 feet, just waiting for a day to do the job. Hope cuagn sn essee if anyimprovement, altho 589 pretty gud hi. So W9SZR 73 to u es the gang de
